QualCon – Quality in Construction
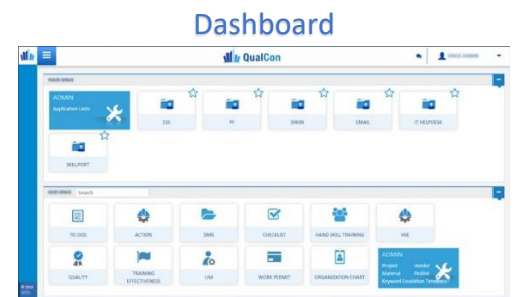

Make Safety and Quality Your Priority

Would you like to increase site safety and quality while saving money?

Your single, centralized web and mobile based application for all HSE and quality processes across corporate, regional and project sites. QualCon is your digital vault for site management.

| Web and Mobile Application	Monitor, control safety & quality parameters	Receive user to-do lists and notifications	Integrate with systems DMS, SAP, email, SMS	Create, review and interpret detailed reports
Transmit data in real time to central database	Create, collect checklist data from multiple sites	Structure tasks, escalations, approvals	Minimize risk with severity-based responses	Time-based Work Permit site access

Collected and Stored Data

- Committee Meetings – Notes and actionable items
- Training Program Data – Details of team HSE training taken
- Health and Safety Review – Hazard identification, risk assessment and control measures assessment
- Environment Review – Identification of environment aspects and impact evaluation
- Fire Drill Compliance Records

Dashboard

Tool for Quality Departments and Auditors

- Internal QA/QC Audits – Capture the internal QA/QC audit findings against predefined checklists
- Incoming material QC checklist
- Hand skill training – capture and manage details of all training
- Site walkthrough observations – capture and manage observations
- Concrete sampling details – Record grade, quantity, samples taken
- Daily project and site status knowledge

Inspection Module

Rapid and Substantial ROI

Increase profit substantially with QualCon daily project and site status information and data collection and reporting.

Type	Current Process			QualCon		
	#	Time (hrs)	Elapsed Time	#	Time (hrs)	Elapsed Time
Observations	1000	500	1 week	1000	83	1 day
Checklist	495	165	4 days	495	41.25	1 day
Safety Training	15	30	3 days	15	1.25	Immediate
Incidents	10	60	1 week	10	.083	Immediate
Work Permits	660	330	1 week	660	55	Immediate
Issues	211	105.5	1 week	211	17.6	Immediate
